THE CURRENCY.

There is a bill pending in the Legislature to recall the old silver certificates and issue new cerwill sustain through the accidental destruction of these perishable receipts for the vellow metal. This is indeed one of the arguments of "rag money" advocates, for paper substitutes for the much to have to pack about one's person even ten dollars in silver, one more portable.

As this is a government professedly all the time for reform. it ought when reforming the currency to have repaired the broken faith of former governments regarding the currency. It was detrimental to us. I am afraid once the law that silver certificates of \$20 and upward were busters." redeemable in gold. The banks refused to recognize the law and the government followed suit by making silver certificates of all denominations only redeemable in silver, and discounting silver certificates when offered for goverament dues above ten dollars in amount. Perhaps the United States government's peremptory demand of the Hawaiian government to collect customs duties in gold had something to do with the matter. Yet when the Hawaiian government once issued certificates on the assurance that the higher denominations represented gold, it should have kept taith with the public even if it had to pay the discount. So long as ten silver dollars will buy as much as ten dollars in gold, it does not seem politic to issue separate certificates for the two metals It may indeed tend to precipitate a silver panic here, which would occasion an incalculable degree of distress among the population.

OBSERVATIONS.

Bishop Willis' quarterly, the Honolulu Diocesin Magizine, comes out with a cover. It is a particularly spicy number in its references to public affairs.

The Government, with its lavish liberality toward the civil service, might have spared a little to pay a proof reader on the printed bills thus far presented. It will take a great part of the time in both houses to correct the gross typographical errors in these documents. One sample is "Registrar of Republic Accounts." If there were not other errors equally as bad, it might be supposed that there was something royalistic to be obliterated in the title of Mr. Thrum's office.

The Time is sparkling this issue. It does W. O. Smith, Attorney-General, up brown, all but his black mustache, which it says he would not part with sooner than he would give up his fat job.

AN OPINION.

A gentleman on Maui, who has always taken a deep interest in public affairs and has been a member of the Legislature, writes in reply to a circular issued by the editor of the INDEPENDENT. He tificates upon both gold and silver promises an answer to the several deposits. It will probably be questions of the circular later, but found that the government is in the meantime gives his views ahead of the public as regards the in general as follows: "I am silver certificates, as doubtless beartily in favor of annexation for many of them have been lost the effect it will have upon the where they cannot be found or manhood of the islands. General destroyed by fire or otherwise. Armstrong said that the McKin-Perhaps this is the motive for ley bill forced upon this country issuing gold certificates-that is, a decision between financial and the profit the government may moral retrogression. The decision make out of the losses the public thus far seems to be in favor of moral retrogression. Of course. I refer to the flooding of the country with coolies. This thing will never come to an end till the Hawaiian poor man is in alliance which is unworthy of adoption by with the American poor man. The any honest government. We have condition of the latter is not all never heard of any public demand that could be desired. I am for gold certificates upon gold well aware; but if we do not get deposits. There is a good reason this coolie immigration stopped soon we shall have a land simply more cumbersome currency in of nabobs and coolies. I am in silver. It is a knorough nuisance sympathy with the Hawaiians, them may be mentioned: and in their interests favor annexation. It is all that I can see \$30 per ton. hundred dollars in gold being between them and a practical for the sake of stable government. Ithey can get it, and I have no idea that the present government can be overthrown, but there is a feeling of unrest at home and abroad which is very of filibuster scares-not of fili-

COAL OVERHOARD.

The United States Loses Sixty or Seventy Tons.

One of Hackfeld's big coal barges lying along side the Bennington and loaded with coal Those in Hawaii have only to turned bottom up at 12:45 p. m. try the machine once to arrive to-day. The barge was loaded at the same opinion. with about eighty tons of coal belonging to the United States making this year two special 11 a. m. The work of unloading them both. One sells at \$90 had only been continued for a and the other at \$105. The short time after dinner when the \$90 wheel is for those riders barge keeled over to the water's who are not particular about edge, and after pausing a few having the very lightest weights, seconds turned bottom up. It is said the coal will be a total loss owing to the depth of water. The barge is lying alongside the Bennington but will have to be hauled on shore before being righted. Overloading and taking too much coal out of one side is said to be the cause of the accident.

St Louis College.

The order of closing exercises at St. Louis College next week is as follows: Monday and Tuesday morning, June 24 and 25th, examinations; Tuesday, June 25th, at 3 p. m., band concert on the campus; 9:30 a. m.; Wednesday June 26th, at 7:30 p. m. musical and dramatic entertainment; Thursday, June 27th at 9:30 a. m., commencement exercises and distribution of premiums.

Hawalian Hardware Co.

This enterprising hardware firm has a new advertisement in this issue relating to the Monarch bicycle, from which it would appear they are in the bicycle business to stay. Anyone about to purchase a wheel cannot do better than examine the Monarch and get prices before purchasing elsewhere.

Timely Topics

June 19, 1895. As the days go by the bicycle is coming more and more to the front. It is becoming an actual necessity in almost every department of the world's af-Emperor William of Germany has already recognized its utility in his vast military organization and has equipped several regiments with wheels. This suggestion is offered to Col Mc-Lean, who is said to be think-

ing of organizing a cavalry company.

Instead of mounted police why not furnish the guardians of the peace with bicycles, the same as is done in Chicago, New York, San Francisco and other large cities. In his recent report the attorney general dilates in glowing terms on the utility of the mounted police in the outlying districts. What is the matter wirh mounting them on wheels? This suggestion is respectfully offered to Marshal Hitchcock and his superior. A good horse costs more than a good bicycle, but irrespective of that there are several reasons why the wheel is the more economical and useful of the two. Among

1.—Bicycles don't eat hay at

2.—Bicycles don't munch serfdom. I also favor annexation oats and barley all day long when

Bicycles don't bite nor tread on your pet corns.

Bicycles never get tired and

they don't drink. Now there are bicycles and bicycles, of all sorts, sizes and shapes but none of them come up to the Monarch in beauty,

strength and swiftness. It is the strongest, fastest, and most beautiful wheel that is manufactured, and the wheelmen of America know it.

The Monarch Bicycle Co. is and reached the Bennington about grades of wheels. We have but who want a good, serviceable wheel, sold under a birding guarantee, which will run easily and wear well. The \$105 wheel is the latest product in high grade wheels. It is adsolutely the best high grade bicycle on the market, strong, stiff, staunch, light and easy running and giving entire satisfaction to all who ride it. To sum up its perfections it is the monarch of all wheels.

We have received the first consignment of a dozen of these wheels and they are going off like hot cakes. We sold two of them this morning before lunch. We have several other consignments on the way and will soon be in condition to supply the army, police and other government departments, with a few left over for the navy when its officers feel like taking a spin out to the beach. To the general public we would say,"Don't purchase a bicycle till you have seen the Monarch." If you don't buy of us then there will be no hard feelings on our part.

AUCTION SALE.

By Lewis J. Levey.

PUBLIC AUCTION.

I am instructed to sell at Public Auction at my salesrooms on

Thursday, June 20th, At 10 o'clock A. M.,

For account of "Consignment Account" a large line of

Eastern-made Balbriggan Undershirts and Jean Drawers, all sizes, Hosiery, etc.

These lines are all seasonable and regular goods and must be sold to close consignment.

Lewis J. Levey. Auctioneer

PUBLIC AUCTION --I will sell at Public Auction at my sales-

Thursday, June 20th. At 12 o'clock noon,

FOUR CARRIAGE

CART HORSES.

L. J. LEVEY.

IT IS AN OLD SAYING

That "where there is Smoke there must be Fire," and that fire and smoke together often cause explosions. . . .

THIS HAS PROVED TO BE UNTRUE, And as the proof of the pudding is in the

eating, I most respectfully invite you to call and inspect the "NEW PROCESS" GASOLINE STOVE absolutely free from unpleasant odors, and can be operated by a child. This Stove will reduce ice cold water to boiling heat in

three minutes.

The expense is small. In fact it does not cost one half as much to run the NEW PROCESS as a wood, coal or any other
